Ada Build

This certificate is presented to

Nanaya Miki

Congratulations on attesting to your completion of the Ada Build coursework. Ada Build is a self-guided curriculum that introduces beginners to Python and coding fundamentals, covering foundational concepts such as the basics of coding languages, and gaining comfort with coding tools.

By completing the coursework, you have taken your first steps into the larger world of coding.

Presented this _____ *Tuesday the 2nd of July 2024* _____
